

Stephanie Nicole | Founder | Senior Principal Consultant

Company Profile

SNS Consulting is a certified service-disabled veteran, minority, women-owned talent acquisition, DEI Strategies, and succession planning firm. As we all know, the workforce landscape has changed dramatically over the past decade. We also recognize that the quality of the people in your organization ultimately drives culture, productivity, and profitability. This climate has unique challenges relative to attracting, hiring, and retaining elite talent. Our passion is finding the right person for the right position every single time.

Our talents include recruiting highly specialized professionals and c-suite level executives in the IT, Oil & Gas, Healthcare, Aviation, Manufacturing, and Government sectors. When you partner with SNS Consulting, we create customized recruiting strategies because no one talent search is created equal. Utilizing our proprietary talent management software, we emphasize identifying inclusive candidates while providing you with a unique candidate slate. We excel at attracting hard-to-find, highly sought-after, and highly specialized talent for your organization.

Differentiators

What sets SNS Consulting apart from the rest is that we are a certified diversity executive firm. We are licensed and credentialed to go into organizations to create, develop, and implement DEI strategies nationwide and globally. Additionally, two-thirds of all the candidates we submit are diverse candidates, encompassing not only visible diversity but also diversity of thought that helps organizations grow and be profitable. As well as invisible diversity for candidates that are disabled veterans, candidates that are deaf, or neurodiversity like autism or anxiety.
